VIVEK GANGOLLI

Senior Software Engineer | Full-Stack Development | AI-Assisted Engineering & Automation

+91 7892865556 | vivekgjce@gmail.com | linkedin.com/in/vivekgangolli | vivek-gangolli.github.io/portfolio

PROFESSIONAL SUMMARY

Senior Software Engineer with 11 years of experience designing and scaling high-performance enterprise applications across Telecom and Storage Area Networks (SAN) domains. Proven track record of delivering cloud-based solutions in Agile environments. Practitioner of AI-assisted engineering and automation integrations to streamline workflows, elevate code quality, and accelerate feature delivery.

SKILLS

- **Programming Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, Java
- **Frontend & Frameworks:** React, Redux, GraphQL, MUI, Storybook, Mock Service Worker, Playwright
- **Backend & Frameworks**: Quarkus (Self-Learning), Jersey, Jetty, Jackson, JPA, Hibernate
- **AI Tools & Infrastructure:** Cursor, OpenCode, Ollama with Local LLMs
- **MCP & Automation:** GitLab, Atlassian, Playwright MCP, AI-powered engineering workflows
- **Cloud & Platforms:** AWS (Basic), Ubuntu, CentOS, RedHat, Windows
- **Databases:** PostgreSQL, LMDB
- **DevOps, Build & Monitoring:** Docker, Jenkins, Maven, NPM, Webpack, Vite, Graylog, Sentry

EXPERIENCE

Netcracker Technology | Bangalore — Senior Software Engineer | 02/2023–Present

eCare Portal – Microservices on AWS: *Cloud-based self-service web portal for a leading telecom and digital services group in Denmark*

Technologies: React, Redux, TypeScript, GraphQL, MUI, Storybook, Playwright, Vite

- Core contributor driving feature development, release management, and production defect resolution across multiple major product releases.
- Incorporated AI-assisted software engineering practices using Cursor and OpenCode, drastically improving developer productivity and accelerating feature-to-market delivery.
- AI/MCP-powered engineering workflows integrating GitLab, Atlassian and Playwright MCP's to automate code review, defect analysis agent, and E2E workflow.
- Assumed interim team leadership responsibilities, steering technical architecture decisions, mitigating delivery risks, and mentoring junior engineers.
- Conducted 20+ technical interviews across teams.
- Actively explore emerging AI ecosystems through personal R&D, prototyping local LLM integrations (Ollama) and OpenCode.

Hewlett Packard Enterprise (HPE) | **Bangalore** — Systems/Software Engineer Specialist | 08/2015–01/2023

React Developer | 06/2019–01/2023 | HPE Storage Fabric Manager – Storage application for SAN fabric management, part of HPE GreenLake

Technologies: React, Redux, Node.js, Mock Service Worker, ESLint, PostgreSQL, Docker, Jenkins

- Developed comprehensive GUI components and pages for the NVMe fabric controller.
- Modernized the legacy codebase by migrating class components to functional components using React Hooks, substantially reducing technical debt and component complexity.
- Spearheaded the complex transition and UI redesign of the application from Grommet to HPE's proprietary UI library.
- Raised internal coding standards and code review process, directly improving overall team code quality.
- Collaborated with distributed cross-functional teams on complex features.

Java Developer | 09/2015–05/2019 | HPE SmartSAN 3.0 for 3PAR – REST and CLI-based switch management

Technologies: Java, Jersey, Jackson, Jetty, JPA, Hibernate, LMDB

- Designed and implemented robust authentication mechanisms for the embedded REST server, including HTTPS enforcement and redirection filtering.
- Deployed Service Location Protocol (SLP) for seamless client discovery of iSNS services supported by SSH key-based authentication.
- Integrated login authentication via JPam, issuing JSON Web Tokens (JWT) for secure REST client verification.
- Built a Log4j-based logging pipeline to route structured REST telemetry and messages directly to the SYSLOG daemon.
- Implemented shell log reading and JLine-based auto-tab command completion.

EDUCATION

- Sri JayaChamarajendra College of Engineering (SJCE), Mysore | 2015 | Bachelor of Engineering in Computer Science | CGPA: 9.31
- R.N. Shetty Composite Pre-University College, Kundapura | 2011 | II PUC | 92.16%

TECHNICAL PAPER & AWARDS

- Presented "Smart SAN 3.0 - Swiss Army Knife for IP Storage Deployments" at the company-wide Parasparam 2016 event, winning the Best Presentation Award.
- Secured 1st place among college submissions and ranked 13th nationally in the Aakash Android Application Programming Contest by IIT Bombay.
- Recognized with multiple Star and Spotlight Awards at Netcracker Technology and numerous excellence awards from HPE leadership.

ADDITIONAL INFORMATION

- Languages: Kannada, English
